SUMMARY & COMMITMENT

The Accessibility for Ontarians with Disabilities Act is a law that was passed by the province of Ontario which allows the government to develop and enforce specific standards for accessibility. The standards are intended to achieve accessibility for people with disabilities in the areas of customer service, transportation, the built environment, information and communication, and employment. The Customer Service Regulation establishes accessibility standards for the provision of goods and services and applies to private sector organizations as of January 1, 2012.

Richardson GMP is committed to treating all people in a way that allows them to maintain their dignity and independence. We believe in integration and equal opportunity. We are committed to meeting the needs of people with disabilities in a timely manner, and will do so by preventing and removing barriers to accessibility and meeting requirements under the Accessibility for Ontarians with Disabilities Act.

Richardson GMP is also committed to applying the same standard throughout its offices and websites across Canada.

Richardson GMP has developed a Multi-Year Plan that describes how it intends over time to become a more accessible organization and sets forth the principles of how it provides service and otherwise interacts with people with disabilities. This plan will be posted on the company website, reviewed and updated periodically by the Committee.

TRAINING

Richardson GMP will provide training to all employees on the accessibility laws and the Human Rights Code to increase awareness and encourage respect for the core principles of independence, dignity, integration and equality of opportunity for people with disabilities.

Training will be provided in a way that best suits the duties of the employees.

Richardson GMP will implement a training program that all employees will be required to complete on an annual basis . The training will focus on the following topics:

- The purpose and requirements of the Accessibility Act
- How to interact and communicate with people with various types of disabilities
- The purpose of assistive devices and how to interact with people who use them
- The purpose of service animals and how to interact with people who use them
- The purpose of support persons and how to interact with people who are accompanied by a support person
- What to do if a person with a disability is having difficulty accessing Richardson GMP services.

Employees will also be required to read the Richardson GMP policies, practices and procedures in addition to any other internal documents on accessibility.

Richardson GMP will keep a record of all training provided under the Act, including the dates on which the training was provided and the individuals who received the training.

EMPLOYMENT

Richardson GMP is committed to fair and accessible employment practices and will continue take steps to notify applicants and employees that accommodations are available upon request to people with disabilities. These practices are available during recruitment, selection and assessment process and for the duration of their employment.

Richardson GMP has a process in place for individual accommodation plans and return-to-work policies for employees that have been absent due to a disability and will work with the employee to meet their needs upon their return.

Steps will be taken to ensure accessibility needs of employees with disabilities are taken into account during performance management, career development and redeployment processes.

Upon request, employees with disabilities will have an individual accommodation plan developed by Human Resources in consultation with the employee.

DEVICES AND ALTERNATIVE FORMATS

Individuals to whom [Richardson GMP](#) provides services may need to do so with the use of assistive devices such as communication aids, cognition aids, personal mobility aids and medical aids.

These assistive devices may include:

- Manual and motorized wheelchairs
- Canes, crutches and walkers
- White canes
- Hearing aids
- Magnifiers
- Oxygen tanks
- Electronic communication devices

Availability of assistive devices:

[Richardson GMP](#) strives to enable people with disabilities to benefit from the same quality of service as other customers. Physically-accessible areas of [Richardson GMP](#) premises include the following assistive devices, as appropriate:

- Automatic door openers
- Elevator or ramp
- Accessible washrooms
- Websites
- TTY telephony

DESIGN OF PUBLIC SPACES

Richardson GMP along with each location building management will meet the standards for the design of public spaces when building or making major modifications to public spaces. It will put procedures in place to prevent disruptions to its accessible parts of its public spaces. In the event of disruption, Richardson GMP will notify the public of this disruption.

These procedures will be in conjunction with building management practices as they comply with the Act.

Public spaces include:

- Outdoor paths of travel such as sidewalks, ramps, stairs, rest areas
- Parking lot or garage
- Reception areas

MULTI-YEAR ACCESSIBILITY PLAN

Richardson GMP has established an internal accessibility committee which is composed of members from various departments of the company and is responsible for coordinating efforts to ensure that it is compliant with its obligations under the AODA. This committee also works to inspire leadership through the services provided including:

- Helping with accessibility related issues both with internal employees and external clients, vendors, etc.
- Supporting and promoting accessibility tools and guides
- Supporting or coordinating other initiatives
- Developing accessibility standards and practices

CLIENT & EMPLOYEE FEEDBACK

Richardson GMP aims to meet service delivery expectations for all of its clients and employees, including those with disabilities. Our organization welcomes feedback on how client and employee expectations are being met and uses it as an opportunity to improve.

Richardson GMP recognizes that people with disabilities may use different methods to communicate their feedback. Clients who wish to provide feedback on the way it services people with disabilities can do so in a variety of formats including:

By mail Accessibility Officer
Richardson GMP Limited
145 King Street West
Suite 500
Toronto, ON M5H 1J8

By email Accessibility@RichardsonGMP.com

Clients providing feedback should include the following information:

- Time and date of event
- Feedback concerning event
- Service being accessed
- Personnel involved
- Additional comments
- Contact information (should the person wish to be contacted)

Feedback will be reviewed and appropriate action, if any, will be developed and implemented.
